

What is the difference between bold tag and strong tag.

<b>strong tag</b>	<b>bold tag</b>
The <strong> tag is used to define text with strong importance	The bold (<b>) tag specifies bold text without any extra importance.
It has semantic meaning, it implies that the text is important	It has not any semantic meaning, it only applies visual styling
The text inside this tag is <b>bold</b>	It makes any text bold.
Conveys importance for both sighted and screen readers.	Provides no semantic meaning for screen readers.
Contributes to SEO by signaling importance to search engines.	Doesn't convey importance, less helpful for SEO.
Encouraged for emphasis with importance.	Primarily used for visual styling without semantic implications.
